John Bryson, the youngest and chipperest kid of the whole layout, looking like a sixteen-year-old damsel after a beauty sleep in Bryson-Bonebrake Block, is right on deck and will go to Chicago as an alternate if it's possibly in the cards. Jere Lynch, the great anti-Buckley agitator, got in early and was steered into out-of-the-way rooms, but will be on hand tomorrow when the performance begins.

Review, who knows how to take in the stranger and make him enjoy himself.

The town has laid itself out to entertain the convention and the numerous attachments, journalistic and other wise, and, barring accidents, everybody will have enough to eat and at least a cot in a hallway.

Tomorrow, when Barney Murphy and Brother Ostrom lock horns on the chairmanship, there will be fun enough for all hands. The genial Celt from San José does not seem to care a cuss whether the convention has a chairman or not, but I apprehend that he is laying some pretty deep wires for the honor. He is a Cleveland man, but i opposed to instructing.

The election of a chairman will clear the atmosphere and enable a fellow to get his guesser limbered up for future use. At this hour the air is all a tangle with dusters and gripsacks that have not got dusted off yet. MR. TAYLOR'S DISPATCH. Issue Joined Between Admirers and Op-

FRESNO, May 15 .- [Special.] The leading city of the great San Joaquin Valley, and likewise the headcenter of Democracy in California, is in

Capt. Driffle deliberates.

a high state of excitement over meeting of the State Democratic Convention. The town is elaborately decrated, and the people are doing everything in their power to make the delegates and visitors feel at home.

THE TIMES representatives, with sections of the Los Angeles, San Bernardino and San Diego delegations, arrived at 11:45 a.m. Among those on the train were John Bryson, Jr., Capt. A. W. Barrett, Andy McNally, Johnny Griffin, Col. Dick Eagan of San Juan, ex-Sheriff J. C. Kays, ex-Mayor Hunsaker of San Diego, Hughes of San Bernardino, and others.

The Democratic headquarters are at the Hughes Hotel on Tulare street, and here the able statesmen most do congregate. Among others here are Maj. W. R. Burke, George S. Patton, Harry Southern citrus belt. who are putting terests, or those of their friends.

So far as known there is no opposigate-at-large from the Southern end of the State, and his election is regarded as a foregone conclusion, but he will or anti-Cleveland before the vote is taken.

For the position of alternate there are two candidates from Los Angeles-John Bryson, Sr., and ex-Sheriff J. C. Kays.

Capt. A. W. Barrett is looking after Mr. Bryson's interests, and that gentle man is also making a vigorous and active canvass and is confident that if the alternate is selected from Los Angeles he will be the man. Mr. Kays has been making an easy campaign, and, while he would be willing to go to Chicago, if. the convention wants him, as alternateat-large, he will be satisfied with the district alternateship, and is shaping his course accordingly.

The contest for district delegate

from the Sixth may prove interesting. The only name so far mentioned from the northern end of the district is Jesse D. Carr of Monterey, and the comparatively few delegates already here are of the opinion that he will be elected

without opposition.

J. D. Lynch is not yet on the ground, but is looked for at 8 o'clock tomorrow morning. George S. Patton is here, armed with several proxies, and is do-

whether the delegation shall go to Chicago instructed for Cleveland, or whether they shall go uninstructed. This issue has been sharply defined, porary chairmanship is looked on as the critical test. The candidates for the chairmanship are ex-Senator B. D. Murphy of Santa Clara and ex-Senator Dan A. Ostrom of Yuba. Senator Ostrom is the declared candidate of the Cleveland men, and they are working hard for his success.

Regular headquarters have been opened in the Fiske Block, on Tulare street, and here the Cleveland men are

Delegate Wolfskill wonders

made to feel at home. Judge Craddock of Yuba, Dr. Matthews of Tehama, and ex-Senator C. P. Berry are conducting Mr. Ostrom's fight, assisted by Hon. John P. Irish of San Francisco, McKee of Contra Costa, Patton of San Bernardino and others. These gentlemen are actively engaged in missionary work for the "Stuffed Prophet," and insist that the delegation shall be instructed, not in a cast-iron way, of course, that Cleveland is the first choice of the California Democracy-in other words, that the convention shall declare its preference in unmistakable terms for Cleveland. It is urged that this course is necessary for the moral effect it will have on the country at large as any thing like a half-hearted indorsemen will be used against Cleveland to his detriment.

The Murphyites, on the other hand contend that the delegation shall go to Chicago free and untrammeled by any instructions whatsoever, so that the shall be free to act as the exigencies o the occasion may warrant.

There is no question but that the Cleveland sentiment is overwhelmingly in the ascendant out here. The Fresn county delegation was three times in structed for Cleveland, and it is stated by northern delegates that that is the prevailing sentiment all over that end of the State; but, nevertheless, the Murphy men are trying to stem the tide, and if hard, persistent work will do anything, it will have its effect.

Much interest is felt as to how the southern counties will go. There are but few delegates, comparatively, or

the ground. The majority of the delehave to declare himself as to Cleveland gates are looked for at 3'oclock tomorrow morning, but some will not arrive until noon

It was the intention of the Los Angeles delegation to caucus this evening, but this has been abandoned and no caucus will be held until tomorrow

morning. The hotel lobbies are crowded this evening, and the whole town is give up for the time being to politics. The froquois Club has secured a large hall and here delegates are provided for.

The headquarters of the executive committee of THE TIMES (the only Los Angeles newspaper represented) and of the Examiner are at the Hughes. The Grand Central is also the rendezvous of large section of the delegates, the others being scattered throughout the city in private houses and the smaller W. G. TAYLOR.

STEPHEN M. WHITE IN IT. Lynch a Quien Sabe Case-The Other Candidates.

[SECOND DISPATCH.] Fresno, May 16.—[Special.] At 9 o'clock Hon. Stephen M. White, who arived from the North at 5 o'clock with a section of the San Francisco delegation, was interviewed by a TIMES repre sentative. Mr. White says that everything is for Cleveland, at least 80 p cent. of the delegates favoring his nomination. He states that while there may not be any cast-iron specific instructions for Cleveland, the resolution will strongly indorse him and that the delegates will be Cleveland men.

Mr. White is for Ostrom for chair-man, and while he will not place him in nomination, for the reason that he is imself a candidate, he is working in his interest, and all his influence is be ing exerted in his behalf.

Much interest is being taken in the

For alternates the only prominent candidate is John Bryson, Sr., of Los Angeles. Ex-Sheriff James C. Kays was a candidate, but he and Mr. Bryson have arrived at an agreement by which Mr. Kays has withdrawn from the race and will take a district alternate's place in the Sixth if he can get it, and

will probably make it without trouble For district delegates the following are named: First District, Clay W Taylor of Shasta, ex-Congre R. D. Stephens of Sacramento, A. F. Jones of Butte; third district, Frank J, Moffitt of Oakland, John Bogg of Co

TWO THOUSAND MOTHERS.

One of the Most Interesting Meetings
Yet Held.

Rev. B. Fay Mills preached to more
than 2000 mothers yesterday afternoon. A limited number of fathers
were present also—some of them whitehafted and bent with age—and at least
100 of the little folks themselves were
there. The coo of babies' voices minpled with the gennel sange and got

haired and bent with age—and at least 100 of the little folks themselves were there. The coo of babies' voices mingled with the gospel songs and got mixed up with the words of the sermon, but no one minded—not even the evangelist himself, who will never allow grown people to disturb the meeting in any way. It is a good thing, this matter of insisting on at least respectful attention to God's word; it inspires reverence. Rev. Mills read a portion of the first chapter of I Samuel for the Bible lesson, and then Mr. Greenwood sang "My Mother's Prayer."

"One could not see in any city a more important gathering than the one here today," began the evangelist. "The hand that rocks the cradle rules the world. When Napoleon was asked the greatest need of France he replied, "Mothers.' That is the greatest need of America and the greatest need of the world. It might seem perhaps a difficult thing for a son to speak to mothers, but I may drop some humble words to you, perhaps, that will be helpful. Solomon says in the twenty-eighth verse of the thirty-first chapter of Proverbs, "Her children arise up and call her blessed.' A woman's crown of crowns is motherhood, and no woman has ever worn a real crown till her children have arisen around her and called her blessed. There is no good influence in this world but is measured by love. Love is a part of God's reservation for mothers and none else. No man has in his heart the love that wells up in the heart of the humblest mother. A mother will follow her boy even to the scaffold and there throw her arms around his neck and say, 'This is my son.' There is no love on earth like that of a mother. I believe a man might stand before an andlence of thousands and move it to tears by his eloquence, and the power of his influence not compare with that which God has given to the humblest mother. A minister was once pleading with a godless man. He said he did not believe in a God at all. 'Do you believe in your mother?' the minister asked. The hard face of the man softened and believe in a God at all. 'Do you believe in your mother?' the minister asked The hard face of the man softened and he said he did. 'Then you believe in love,' said the minister, and tonight I wish you would kneel down and say a wish you would kneel down and say a prayer to love.' After some time he won the man's consent to do this. When he was left alone he knelt down and said, 'Oh, love,' and a voice seemed to say, 'God is love,' and then he said, 'Oh, God,' and the voice answered, 'God so loved the world that He gave His only begotten Son that whosoever believed in Him might have everlasting life,' and the work was done; he went out a saved man. out a saved man.

Mothers, there are four conditions

"Mothers, there are four conditions which if you heed will make it a certainty that your children will rise up and call you blessed.

"First—You should have a high ambition for your children. There was a maiden in ancient times called the daughter of Scipio. She married and there came into her home two infants. Loking at her boys she cried, 'Call me no longer the daughter of Scipio, but call me the mother of the Gracchi.' She so believed in her little children call me the mother of the Gracchi.' She so believed in her little children that she had rather her name should go down to posterity as the mother of her children than as the daughter of her father, and those sons are called to this day 'Cornelia's jewels.' I have seen mothers train their children as butternies. Thave seen mothers than the children as butternies.

mothers train their children as butter files. I have seen mothers keep their children out of the ministry and out of the church of Christ—I find them every where doing that—they want them to be rich and famous and have worldly power and never a thought for Christ—"Second—A child has a right to expect from a mother a holy example. I heard a group of ministers once telling how they came to be converted. One said it was under the ministry of this one, and another under the ministry of that one, and another under the ministry of this one, and another under the ministry of the sound in an other when the service will be to the converted of their mother's practices. A mother was a noted literary woman; Byron's mother had a brilliant intellect, but a terrible temper; Bonaparte's mother had great personal beauty, a violent temper and great prices.

Fifth—I believe that a mother may lean with such a measure of dependence upon God that he may move the arm that moves the world to bring back from the very brink of perdition the wandering son. If it had not been for the love, the prayers and the influence of my mother, I should have been in the depths of hell. Boys say that they do not want to be tied to their mother's apron strings, but I thank God that my mother's apron string was long enough, and strong enough and elastic enough to hold me when I was thousands of miles from home. I was born into the kingdom of God with no holy influences about me, in the Godless city of San kingdom of God with no holy influences about me, in the Godless city of San Francisco, at a time when I looked into such depths as I could scarcely mention to you. It seemed as though the very darkness of hell was before me. My mother, alone before God, thousands of miles away, cried unto Him, claiming his promises, and the power came down and drew me back from perdition. I bless God for the faith, and love, and long-suffering Christian prayers of my mother.

faith, and love, and long-suffering Christian prayers of my mother.

"A little boy lay dying. 'Father, please lift me up,' he cried. The father lifted him higher on the pillows. 'Lift me higher yet,' he asked, and the father listed him higher. 'Higher still.' plead the faint voice of the dying boy, and then the father lifted the little fellow the lift has been recorded by and them. as high as his arms could hold and when he took them down the spirit had left the little form. I think he had lifted him into the arms of Christ. O mothers, be satisfied with nothing less than that. Get your arms underneath your children and lift them into the everlasting

when the appeal closed not a mother in that vast audience but wiped from her eyes the tears, and every head bowed as the voice of the evangelist sowed as the voice of the evangenst rose in a prayer, earnest, fervent, and tender in its pleading for the mothers and the fathers of the grown sons and daughters, the young men and maidens, the lads and lassies and the little ones in their arms. IN THE EVENING.

The service at the Pavilion last night

was open to all classes, and the lower floor and first gallery were filled with floor and first gallery were filled with men and women, old and young. At the opening of the service Rev. A. C. Smither read the resolutions passed by the City Council yesterday in regard to the suspension of business on Wednosday. A chorus of "amens" greeted the reading of these resolutions and then a burst of applause came spontaneously from the assemblage.

Coming forward, Rev. Mills said: "I want to congratulate the people for

has not shown any disposition to force his belief upon any one and has taken such an entirely manly course since his coming to Los Angeles has much to do with this remarkable action. While the evangelist has been tremendously in earnest, and has spoken gospel truths fearlessly, he has always taken pains to speak kindly of those who do not agree with him; Catholics, Jews and all shades of religious faith have been equally re-

spected by him.

His text last night was from Proverbs xxviii:18: "The one deep curse of sin is the insensibility it produces," he said, "and therein lies the danger. God's eye looks down through all the God's eye looks down through all the coverings we have put over our heart and sees the seeds there waiting for development even as the seeds of pestilence are hidden. Men cover their sins by making false assertions concerning the mercy of God; by setting up false standards of action; by alleging that their sins are secret, or few, or small, or by saying that they have no feeling concerning them."

All these points were elaborated in the graphic way for which the evange-

All these points were elaborated in the graphic way for which the evangelist is famous. Going further, he pictured the consequences of sin and drew word pictures of the future of the lost as awful as are Doré's pictures from Dante's "Inferno."

In concluding he appealed to those who were leading a gedless life to turn from their sins. "No matter who you may be, you cannot have the mercy of God," he urged, "till you say 'me the sinner, me the sinner.' Will you take that first step tonight! How many will rise up and say it?"

A majority of those who responded were young men.

This evening the service will be especially for young men, though all classes are welcome. The canvassers of convertible that first step tonight?

The trainmen will evidently have to concede a few points if an early and satisfactory agreement is to be reached

THE VISITING EDITORS.

Over the Kite-Shaped Track Today—To Arrive Here This Evening. The editorial visitors were entertained at San Diego yesterday accord-ing to the prearranged programme, in-cluding receptions, rides by boat, steam and cable cars and general festivities. Today they will come north again. One-half of their number will take breakfast at Riverside, to be followed by a carriage drive, and then will go to San Bernardino, Redlands and around the small loop of the Kite-shaped Track. Another detachment of about the same number will go straight through to San Bernardino, take breakfast there, go around the loop and drive over Redlands, returning thence to Riverside to view that

Coming forward, Rev. Mills said: "I want to congratulate the people for living in this kind of a city—'Happy is that people whose God is the Lord.' This action on the part of the City Council is one of the most commendable things I ever knew of."

Doubtless the fact that Rev. Mills has not shown any disposition to force his belief upon any one and has taken such an entirely manly course since his coming to Los Angeles has much to do with this remarkable action. While the

KOCH'S DISCOVERY.

A remedy discovered that is of far greater efficacy than the noted lymph.

The tubercle bacilli were discovered by Prof. Koch, to be constantly present in all cases of consumption. Where the blood is impoverished or impure, there results that constitutional condition known as scrofula, which is characterized by the liability of certain tissues to become the seat of chronic inflammations and enlargements.

These troubles may start as catarrh in the mean passages, throat or lungs, and as the membranes become weekened, the tubercle baccilli enter, and multiply, and we have, as a result, that dread disease—Consumption.

Find a perfect remedy for scrofula, in all its forms—something that purifies the blood, as well as claims to. That, if it's taken in time, will cure Consumption. It has been found in Dr. Pierce's Golden Medical Discovery. As a strength-restorer, blood-cleanser, and flesh-builder, nothing like it is known to medical science. For Scrofula, Bronchial, Throat, and Lung affections, Weak Lungs, severe Coughs, and kindred aliments, it's the only remedy so sure that it can be guaranteed. If it desen't benefit or cure, your money is refunded.

A new and complete treatment, consisting of Suppositorics, Ointment in Capsules, also in box and pills; a positive cure for external, internal, blinder bleeding, itching, chronic, recent or hereditary Piles. This remedy has never been known to fall. Bi per box, 6 for 8s: sent by mail. Why suffer from this terrible disease when a written guarantee is positively given with 5 boxes. The main topic of interest in politics is the Sherman boom for the Presidency, and what it means. It is well understood that the men who are active in opposition to Mr. Harrison are Platt, who can come pretty near controlling New York; Quay and Cameron, who control Pennsylvania, and Mahone, who controls the delegation from Virginia. Then the everlasting question comes up, "How about Ohio?" That is always the question.

ELECTRICIANS are now considering the feasibility of transmitting electric power through ordinary manilla or hemp ropes.

A PENNSYLVANIA girl eloped with her father's colored coachman a few years ago, and she recently died in a Nev Jersey poorhouse. She had her romance and paid for it. And now another girl in Pennsylvania has run away with another colored coachman to see whether she cannot break the record. Some girls are born fools, and they can't help it.

In one sense it is unfortunate that Rev. Mr. Mills and his co-workers should have picked upon tomorrow as the mid-week Sunday. It is the day when the editorial excursionists will be here, and instead of finding the lively, go-ahead place that they anticipate they ill find most of the retail stores closed and the principal streets wearing a half-deserted appearance. Another day would have served for the extra Sunday just as well. It might have been set for today or Thursday and then the town could have put its best foot foremost with the visitors and given its tribute to religion as well.

THE White Star line is going to build two colossal twin screw steamships to compete with the leviathans of the Cunard line, now under construction on the Clyde by the Fairfield Shipbuilding Company. Merely the intimation that the White Star line will build is now obtainable at the New York office. The new ships will be bigger than the uncompleted Cunarders, which will measure 14,000 tons and will be 600 feet long and 65 feet beam. with about 80,000 horse power. The new Cunarders will be guaranteed by their constructors to make not less than twenty-one knots in the open sea. Of course to uphold their supremacy on Starships will have to do a little better than twenty-one knots.

INVENTION has at last come to the front with a device which will accomplish the switching for a telephone ser vice automatically, thus dispensing with the force of "hello girls" now employed. While the new device will, in time, leave a good many worthy people without employment, it will be a great advance in the telephone service an l a benefit alike to the companies and the public. By this device a conversation hone line may be strictl private, or three people at three differ ent 'phones may converse together simultaneously. The new device is described at some length in our local columns today. It is the invention of a Mr. Strowger of Kansas City, Mo., who worked five years in perfecting it. Four hundred cities are already listed to utilize the new switch, and Los Angeles ought to make haste to be counted the four hundred and first.

THE following from the Kansas City Star, gives a very pleasant compliment to the editorial excursionists who will be with us tomorrow:

There are poor editors, as there are poor men in every calling, vocation, trade or profession, but rags and emaciation are certainly not the trademarks of the modern journalist. Of the great party of ladies and gentlemen representatives of the Mational Editorial Association who passed through Kansas City yesterday it may be said that no more gorgeously appareled company has ever passed under the shadow of the Kansas City Union depot that no more rotund and cheerful-faced men or fairer or happier women ever gathered on the platform. Four hundred such sweeping across the continent, taking in their way the dedication of a spiendid home erected for aged and infirm printers, utterly dissipates the old traditions respecting the face of those who handle pen. utterly dissipates the old traditions specting the fate of those who handle p pencil and type metal.

WE are in receipt of a boom edition of the Canton, (O.) Evening Repository, published at the home of Gov. Mc-Kinley. It is a thirty-two page paper, and in its descriptive matter well illustrates the benefits of a tariff which looks to the interests of home manufactures. In 1850 Canton had a population of 2,603; in 1860 it had 4,041; in 1870 it had 8,680g in 1880, the population was 12,258, and it now asts upward of 28,000. It has the largest manufactory of engines and threshers in the world (C. Aultman & Co.;) the largest watch factory in the world (Dueber-Hampden;) immense agricultural implement and harness fac tories; a great iron bridge company, a steel roofing factory; the Diebold Safe and Lock Works, foundries of various descriptions, furniture manufactories. soap works, and a vast number of other flourishing industries. For some time Eastern architects have utilized the shrewd device of us ing transparent glass brick, which are laid in walls to afford light where a win dow would interfere with the architectaral plan. The Age of Steel says it i now proposed to cast glass not neces sarily transparent, into large blocks for buildings. This material is practically indestructible, perfectly non-absorbent and, therefore, damp proof, and in this way coarse glass could be made as cheaply as concrete or stone. A plan has also been put into practice by which broken glass of various colors is mixed up, placed in molds lined with silica, talc or some other resisting material, and fired. The result is a firmly cohe rent mass, which can be dressed and cut into blocks, which are, of course, irregularly colored and may be em ployed in place of artificial marble. If decorative effects are desired, designs in relief can be obtained by pressure while the block or slab is still plastic.

THE River and Harbor Bill, through which nearly every Democratic Congressman hopes to popularize himself with his constituency, gives the lie most effectively to all Democratic protestations of economy. The bill, as it passed the House, carries ostensibly something over \$21,000,000, but really involves \$47,000,000 because t authorizes contracts that will cost that much to carry out. A large slice of this goes to the improvement of the Mississippi River, and Southern waters generally are favored. Of course this loes not include the Southern coast of California, which comes off with a rather poor showing at best. Some years ago President Arthur vetoed a river and harbor bill appropriating \$12,000,000, on the ground that it was extravagant, and it is possible that President Harrison may veto the pres-ent bill, which exemplifies Democratic ideas of economy and retrenchment in such a striking manner.

otential transmitted by wires has been quite generally overlooked. When a fracture occurs in the line and moisture is condensed on the broken wire the current will cause electrolysis-that is it decomposes the water into its constituent elements, oxygen and hydrogen. These elements are in the right proportion to produce a more violent and oxygen. The process continuing and a spark ultimately being produced, the electric wire thus becomes its own gas producer and its own exploder as We will have to begin to be on our guard against electric explosions as

Ove would think that, where so much of sheet lead is made use of as in China there would be machinery employed in its production; but such is not the case, and in the most primitive fashion. A large brick is provided, the size of the sheet of lead to be made, and this brick is covered with two or three sheets of paper. On this paper the molten lead s poured, and another brick is placed on top, which flattens the lead out to the required size and thickness. The sheets are then soldered together to the size of the interior of the tea chest, the tea packed in and the top sheet fastened in place.

what they are saying at Fresno this morning. A keen review of the field upon the eve of combat is printed in THE TIMES today and "illustrated with cuts." The indications point to the certain election of Stephen M. White and James V. Coleman as two of the delegates-at-large. The others are in doubt. Ostrom will be chairman, and Cleveland is in the ascendant among the delegates.

AT THE PLAYHOUSES.

ATTRACTION TONIGHT .- Richard Mansfield, the peerless delineator of character, will be seen at the Grand Operabouse tonight, be-ginning a five-night engagement with the great play of Beau Brummel, by Clyde Fitch and bimself. Mr. Mansfield is one of the most famous artists on the world's stage, and comes to us direct from a great success in San Francisco, where he has been play-ing to magnificent audiences of that most critical city.

ing to magnificent audiences of that most critical city.

During his present engagement he will also appear in Prince Karl, A Parisian Romance and Dr. Jelyll and Mr. Hyde, all of which call for great genius on the part of the player, but in every place where the artist under notice has appeared, he has met with the most flattering attention from press and people.

He deserves great audiences, and judging from the advance sales, will receive them in Los Angeles. His company is said to be a most capable one, entirely in keeping with the exigencies of the plays, hence a treat is in store for our play-goers during the remainder of the week.

Mr. Carleton is tall and vigorous looking, and he is so utterly devoid of affectation and mannerism that one cannot but feel attracted toward him. His voice is his chief charm, bowever, and with it he completely carried his audience away last night. The subject of his poemilecture was, "The Drama of Human Nature." Commencing with the happy days of childhood he passed on to school days and through various phases of life to the inevitable end, death. During the two hours he occupied the stage he held a complete control over his audience, who were at will, laughing uproariously or trying to hide their emotion; and there was not a single lull in the interest manifested, the crowd being apparently loath to depart when the lecturer closed.

practical politics in the coming cam paign. But in this regard they seem to be as badly at sea as are the anti-Harri-son men for an available candidate to son men for an available candidate to make headway against the President and the power of Federal patronage.

Just now there are two booms, viz., the boom of Mr. Sherman, real or fictitious, and the boom of Mr. Blaine. The appearance of Mr. Blaine at the circus in fine condition and in appearance of excellent health and spirits, has set the conceal, in whom, it seems to me, there are splendid possibilities. They are William R. Morrison of Illinois and Henry W. Slocum of New York." If the foliage does not conceal these little men the season must be very backward in Bluegrass Land.—[Buffalo News. Senator Jones of Nevada, interviewed in the New York Press (Rep.) about the Republican Presidential situation, replied with vigor and emphasis: "Why, every-body knows what it is. It is as plain as the nose on a man's face. Nobody really wants Harrison again. Every-body wants Blaine. If some great-voiced man of oratorical power gets up at Minneapolis and makes a rabble-raising speech for Blaine there will be a stampede to him from every quarter." If the Information possessed by the Albany Times-Union (Dem.) is correct there is going to be a ruction in the Indiana dele-Blaine people wild again. They think that a man who can sit four hours on a circus seat the size of a mustard plaster and eat peanuts and drink pink lemonand end enjoy the clowns and monkeys and trick jackasses and elephants with the gusto of a boy, has life enough in him to be President of the United States if he desires to be—and he can

be it he wants to. be if he wants to.

If the opposition to Harrison was able
to settle upon Blaine, finally and surely,
there would be no question as to the
outcome. The Blaine men think the
Barnum & Bailey circus has settled
that matter, and that matters will that matter, and that matters will proceed upon the basis of Blaine as their candidate, unless Mr. Blaine comes out with a pronunciamento more forcible and peremptory even than his Florence letter or his Scotland dispatches. At the same time, there is always an element of uncertainty about the famous Secretary of State. He probably is not altogether averse to being an element of mystery and anxious questioning. To occupy such a position in the public eye is not half as wearing as to assume the cares, troubles, labor and responsibilities of the Presidential office, and of course no other man so fully occupies the public other man so fully occupies the public attention as Mr. Blaine, whether he is in or out of office. Mr. Blaine has been so close to the Presidency, so familiar-ized with the light fait bears upon an exalted position, that he may have a different view of it from those who look upon it with smoked glasses, as do such men as Hill and Gorman, Alger, Palmer, Boies, Campbell and others of the aspiring ones.
What the Sherman boom means

what the Sherman boom means is known only to those who sprung and are promoting it. There is no questioning the fact, whether the move is sincere or not, that John Sherman, as things stand, would be the most powerful candidate who could be named by the Republican party, in expetthe President fails of renomination, and Mr. Blaine is not in it. You can hardly imagine two people more antipathetic than Blaine and Sherman; you car hardly say one word in description one that would apply to the other, ex cept in regard to party faith and true and stalwart Republicanism. So there are three or four questions now agita-ting the minds of Republicans. They ting the minds of Republicans. They run in about this line: "Can Harrison, be renominated?" "Will Blaine accept?" "How will the anti-Harrison men take to Sherman, and what will he Ohicans do about the matter?" "Will Platt and Quay and Cameron and Foraker support Sherman in case Blaine cannot be had?"

what Mr. Sherman's attitude in the matter is is not distinctly pronounced, but it is understood not to be one of inpacked in and the top sheet fastened in place.

"Just before the bottle, mother," is to the Senate and be assured of fair treatment by the administration for What Mr. Sherman's attitude in the treatment by the administration for himself and his friends. The anti-Har-rison men say surely Foraker's friends can ask nothing better than this. If such an agreement can be made between New York, Pennsylvania and Ohio Sherman will easily carry those States, and that will settle the matter. It is a fact that the Republicans are It is a fact that the Republicans are feeling well over present appearances. The economical Democratic Congress has already put itself on record as passing the biggest river and harbor bill ever known, and the appropriations made will, as it appears, beat the "billion dollar" Republican Congress out of sight. When that Congress came in the Democrats were howling over a hundred million surplus in the treasury, and the Republicans made their appropriations Republicans made their appropriations with the treasury glutted with money. Now the Democrats are making equal or greater appropriations with the treasury in a condition of bankruptcy, as declared by Senator Hoar of Massa-

chusetts recently upon the floor of the Senate. The River and Harbor Bill is a matter of "pork" to the members, and when Mr. Holman interferred with every apmr. Holman interfered with every appropriation except for his own district they jumped on him, and he was obliged to content himself with cutting off an appropriation for pay of a few dollars to the family of a dead employé of the House, a sum about equal to his salary for six months. It had been customary for many years for the House tô make this grant to the family of one of its servants who died in its service. In this case the grant would have amounted, perhaps, to \$500, which sum—being equal to one-twenty-sixth of the appropriation for Holman's Miami "embanament"—was thus saved. When cutting down the salary of employés Mr. Holman is careful that there shall be no touching of the fat salary of

his son, who is 'employed' in the office of the Geological Survey and does no work to speak of.

Altogether matters are beginning to get interesting, and the prospect is now that with the record of this Congress the Republicans can elect their nominee, no matter how obscure he may be, and perhaps the more obscure as Presidential elections go the better.

The Boston Sunday News (Ind.,) in a leader on the "Decline of Cleveland's Boom," says it appears to be bordering on a state of collapse, and is following the Hill shout out into the great political unknown, its echoes growing daily fainter and fainter. For a successor to the decaying boom the News makes a suggestion in this that will no doubt strike Tammany favorably: "The coming man just now is William C. Whitney, who has got rich by the operation of the Standard Oil Trust, and was really a creditable Secretary of the Navy. He is rich enough to fat up Tammany, and would get the support of that organization upon the usual terms, and is worshiped by the Cleveland crowd because he was the one redeeming feature of the administration of the Great I Am. Whitney boom is well-timed. It starts late and looks small, but it is in good hands and ought to be just about large enough to fill the bill when the convention meets. If it were not a certainty that the Democracy will blunder, we should not hesitate to say Whitney is the man."

## LIVELY TIMES IN MEXICO.

Free Fights Between Students and the workmen belonging to the various labor societies paraded and marched to the palace of Diaz to congratulate him on his reélection. Bands of students held counter demonstrations. The rivals met at Lacialo and fought. The students were deficated. Rafael Reyes Spindela, editor of El Universale, the largest daily here, was recognized by students, who assailed him with opprobrious epithets. He charged the students were deficient of the fact that a colored cook of the family had arranged a plot with her

## ANOTHER CYCLONE.

It Sweeps Through a Texas County-Several Persons Killed.

GAINSVILLE (Tex.,) May 16.—[By the Associated Press.] News has reached here of a terrible cyclone in Turkey Valley in Green county. It swept from one end of that fertile spot to the other,

one end of that fertile spot to the other, literally demolishing everything in its path. Even dug-outs were uproofed and people lifted out of them.

The extent of the loss of life cannot yet be ascertained. Five are known to have been tilled and ten probably fatally hurt. Hardly a person in the valley escaped without injury of some kind.

has developed into a contest waged entirely on national lines. D. A. Ostrom of Yuba represents Cleveland's adherents, while B. D. Murphy of Santa Clara is the candidate of those who favor an uninstructed delegation. Hardly a word is to be heard regarding the opinions of the candidates on State matters. The contest is a close one, with the chances in favor of Ostrom and the Cleveland men. Most of the delegations have been polled, and it now appears that the San Francisco delegates hold the balance of power. If Ostrom gets half of their votes he will be elected. Both parties are very positive in claiming the victory.

REDDING, May 16.—[By the Associated Press.] Saturday's stage robbery is still the theme of conversation. Some eight men and boys were engaged in the capture of the wounded robber, who was brought in yesterday, and whose name is given as George Shaw. His gun, an old muzzle-loader, was found, and a man named Haskell was carrying it.

When the party were going down a hill they saw the robber walking leisurely along a ditch on the side of the cafion. They shouted to him, and he began to run, going around a bend out of sight. They followed up, and, as he was crossing an iron flume, Haskell told him to throw up his hands. He turned round and threw up his hands, when a man named Bell grabbed him.

White being led by him to Shasta the robber was bitter against his companions. He said: "They have robbed mand left me to die." His remark lent color to the story that there were three robbers. The wounded robber was out

Filcher of Placer and John P. Irish of Alameda.

A compromise resolution may be adopted warmly indorsing Cleveland, but leaving the delegates free to support the most available candidate at Chicago.

The district conventions to nominate delegates will be held during the recess of the main convention tomorrow. Little interest is being taken in these tonight. Congressmen are to be nominated in several districts, but probably will not be chosen until Wednesday or later.

The county delegates seem inclined to investigate the state of political affairs in San Francisco, and there may be some lively times in the Committee on Credentials, but it is not probable that the fight will be transferred to the floor of the convention. It is not yet decided when the election of the new State Central Committee will take

place.
The San Francisco delegation will hold a meeting at 9:80 tomorrow in Iroquois Hall to attempt to agree on a candidate for chairman.

### IN FOUR ROUNDS.

The Famous Joe Lannon Whipped by George Godfrey. NEW YORK, May 16.—[By the Asso-ciated Press.] The heavy-weight glove contest between Joe Lannon and George Godfrey drew a large crowd to the Coney Island Athletic Club tonight. Lannon tipped the scales at 175 and Godfrey at 185.

Godfrey at 185.

Godfrey was the first to land, which he did with both right and left, hard. He landed many good blows before Lannon got down to work, but when the latter did commence to fight he got in several left-hand jabs and hard right-hand swinging blows.

In the second and third rounds both men fought in a vicious manner and a number of telling blows were struck.

Lannon was knocked down in the third,

Lannon was knocked down in the third, but was quickly up again.

The fourth round was the fiercest and most exciting in the fight and settled the battle. Lannon directed all his blows for Godfrey's stomach, while the colored man played for Lannon's head entirely. He kept jabbing him straight in the face with his left and swinging his right back of Lannon's ear, until he had him so groggy that he could scarcely stand. Lannon swung a victous right, but it fell short of its mark. Before he could recover Godfrey landed a right-hand upper-cut which sent Lan-

arrived here today from the East and were received by Mayor Sanderson and a local committee at the Palace Hotel. The society will hold its convention during this week.

The society will hold its convention away from Lannon. The enthree of Godfrey's terrinc swings almost put Lannon out. The seconds of both men yelled foul, but the referee, Al smith, grabbed Godfrey and dragged him away from Lannon. The en-tire crowd shouted "foul," and the wildest excitement prevailed. The referee turned a deaf ear to all appeals of Lannon's friends and ordered the men to go on fighting, at the call of time, for the lifth round. Godfrey responded, but Lannon refused to get up, whereupen the referee awarded the victory to Godfrey. Lannon was very much exhausted and could not have lasted another round.

NEW York, May 17.—[By the Associated Press.] The Herald's Maraicabo (Venezuela,) dispatch says: "Confirmation of the capture of the city of Bolivar by insurgents and news of the death of the commander of the government forces, Gen. Santiago Rodil, is re-ceived here. The rebel chieftain, Gonzales, rode into Bolivar at the head of a column of cavairy nearly 10,000 strong. Gen. Gucio Edinoze, govern-ment chief in Alto Orinoco, made a good defense, but had to surrender, as did 200 troopers under him. The men immediately enrollled themselves under the insurgent banner. A few were killed or wounded on both sides.

"The second day after the raid, Gen. Rodil reëntered the city and condemned half a dozen military officers to be shot because they had not defeated the rebel raiders. Rodil with 200 mounted mer proceeded up the Oronoco to locate insurgents' carno. Before reaching the point the troops revolted, took him prisoner and demanded an immediate prisoner and demanded an immediate countermanding of the order to shoot certain of their comrades at sunset. Rodil refused to give the order and was shot. The soldiers returned to Bolivar, one of Rodil's guards riding into town with the General's head on a sabre. Gen. Gil now occupies Bolivar with nearly 2500 well armed men. Among the important government officers killed lately in the Andes section is Gen. Manuel Vincente Romero García. The discovery has been made that the dynamite explosions in and about Caracas were caused by men under the direction of Gen. Abdon Otazo, lately of Caracas. He made his escape from the city.

He and His Attorney Plead to Judge Smith for Mercy in Vain.

The Court Saw no Mitigating Circumstances.

A Tardy Motion for a New Trial Filed Henderson Tried and Acquitted -General Court Notes -New Sults,

At 10 o'clock yesterday morning a large crowd of morbidly curious people assembled in the courtroom of Depart-ment One to witness the closing scene in the case against Billy Manning, the pugllist, who was recently convicted of having assaulted S. O. Wood with a deadly weapon on the night of February 26 last. When the case was called at that hour by Judge Smith, the defendant's counsel, R. A. Ling, Esq., arese and addressed the court at some length in extenuation of the crime of which his client had been convicted, and sug-gested that the sentence imposed be in e shape of a fine, with the alternative of a short term in the County Jail.

The defendant then asked leave to ay a few words, and the desired permission having been granted by the Court, he asserted his innocence of the crime of which he was charged, and asked that a light fine be imposed, as the affair was merely a little tustle, which would not have amounted to anything lead not Woods struck his head on

which would not have amounted to any-thing had not Woods struck his head on the stairs as they fell together. After the usual formal questions had been put and answered, the Court aternly addressed the defendant as fol-

of want to disabuse your mind, Mr. Manning, of your idea that this is a light or frivolous offense. To the contrary, it is a very serious offense, one of the most atrocious of its kind that I the most atrocious of its kind that I have met with in some time. You went to the house of this man Wood in the dead-hour of night, entered his private apartment and refused to go out when told. Admitting the truth of your statement that the two of you fell down stairs and that the wounds upon down stairs and that the wounds upon Wood's body were inflicted by his fall, you are none the less guilty for resisting him to such an extent as to render a tussle and fall down stairs an incident of your being put out of the house. I do not see any mitigating circumstances in your case whatever. You declare yourself that you were not drunk at the time, and not being so, you must have been in full possession of your faculties and are amply responsible for the ulties and are amply responsible for the result of the affair. The judgment of the Court is that you will not be sentenced to pay a fine, but that you be confined for two years in the State prison at San Quntin."

A scene of consternation immediately ensued, the defendant's wife, an un ensued, the defendant's wife, an un-unsually strong woman, falling back in a fainting condition, and the defendant, who was completely taken back at this unexpected turn of events, striving hard to suppress the sobs which in-voluntarily escaped him.

voluntarily escaped him.

The District Attorney consented that
the defendant might file a motion for a
new trial, after these proceedings; but new trial, after these proceedings; but the Court did not acquiesce in this ar-rangement, and when the defendant's council applied for a certificate of prot-able cause later on, Judge Smith re-fused to sign it. At 2 o'clock p. m. the defendant's counsel filed the motion for a rew trial, on the following grounds of

First-That the Court misdirected the jury on matters of law arising dur-ing the course of the trial.

Second—That the Court erred in its

decision of questi ns of law arising dur-the course of the trial. Third-That the verdict was con-

trary to law.
Fourth—That the verdict was con-

trary to evidence.

Fifth—Misconduct on the part of plaintiff's counsel whereby a fair and impartial trial had been prevented.

Sixth—Newly discovered evidence, material to the defendant, which could not with reasonable diligence have been

The Court having refused to sign the certificate of probable cause, the chances are that Manning will be dispatched to the penitentlary to-day, in spite of his tardy motion for a new

CRIME AND CRIMINALS.

Elizabeth Ingalls's Terrible Death Struggle.

Husband is Blind and Drunk and She Was Despondent. 'Morris, the Greek" and His Ball

and Chain. Young Violin Thief-A Man Who Robbe Sisters—He is Arrested and Locked Up in the City

Coroner Weldon was netified early vesterday morning of the suicide of a Mrs. Elizabeth Ingalls, who resided with her husband on the San Fernando road just outside of the city limits.

The Coroner hurried to the scene o the tragedy, and soon became ac-quainted with the facts surrounding one of the saddest tragedles ever chronicled

in this city.

Mr. and Mrs. Pagalls came to this country from England several years ago for the benefit of the husband's health and also to cure him of that frightful appetite for liquor that has sent so many men to their ruin. Ingalls's father is a very wealthy man and provided amply for his son and daughter-in-law. A beautiful little place was purchased for them and fitted up with all the comforts of home. Ingalls is allowed a sum every month for the support of himself and wifs.

For a time Ingalls kept pretty sober and his health improved, but he soon fell back in his old habits, and during one of his sprees he lost his eyesight. This so grieved his wife that she almost lost her reason, and some weeks ago she informed her friends that she had made up her mind to take her life in her own health and also to cure him of that

She made several attempts, but did not succeed until Sunday night. Some time Sunday she secured a six-ounce bottle of laudanum and at 4 o'clock she swallowed the whole contents of the bottle. Her husband was in such a state that he did not know what she was doing, and even when she kissed him good-bye and retired to her bedroom he did not realize that she was dying.

Later in the evening he also retired and slept by her side until morning, when he placed his hand on her face and discovered that she was dead. The miserable man managed to dress himself and then wended his way to a neighbor's to give the alarm.

The body was removed to the morgue in Orr & Sutch's undertriking rooms, where Coroner Weldon intended to hold an inquest last evening, but Ingalls was in such a state that his testimony could not be taken, and the inquest was postponed until this morning.

quest was postponed until this morning.

"MORRIS, THE GREEK."

Masher" is Given Fifty Days in the Chain Gang by Justice Austin. A. K. Morropulos, or "Morris, the Greek," who was convicted ten days ago in Justice Austin's department of the Police Court on a charge of having followed and insulted a young lady at-tendant at the Normal school, came up for sentence at 4:80 o'clock yesterday

The fellow was as impudent as usual and insisted that the Court withhold sentence until his attorney arrived. He had nothing to say, however, when his attorney did not show up, and when the Court sentenced him to fifty days in the chain gang and to pay a fine of \$50 he smiled and thanked the Court.

It is believed by the police, who have had much trouble with Morris, that he had much trouble with Morris, that he is crazy on the subject of following young girls about the streets, but it is almost certain that the fellow is perfectly same. He is simply full of Old Nick and it is a pity that the fathers and brothers of some of the girls he has insulted have not taken a club to him and give him such a beating that he will reform.

GREENFIELD GRABBED.

William Greenfield is a young hood-um, about 17 years old, who has made the life of his mother unhappy for a long time by his misconduct. She is a respectable widow residing at No. 1423 Wright street. About a month ago young Greenfield borrowed a violin costing \$40 from Oscar Werner, oung neighbor, who has a stall in the Mott market, on the plea that he wanted to learn to play. Since that time he has refused to return the fiddle or to account for it in a proper manner. Mrs. Greenfield never saw it in the pos-session of her son, and from his dis-honest practice it was surmised that he had sold or pawned the instrument as soon as it came into his hands. soon as it came into his hands. Wer-ner lost patience yesterday and swore out a warrant for Greenfield's arrest on a charge of petty embezzlement. De-tective Benson nabbed the boy on Main street last night and booked him in the City Jail. Greenfield will be arraigned today before Justice Austin. A WILY PEANUT FIEND.

Arrested on Suspicion of Having Stoler Bed Clothing. Harry Lock, a gentleman from Liver pool, who has lately been selling pea-nuts at the corner of Second and Spring streets, was arrested yesterday afternoon by Officer Steele arternoon by Omeer Steele wante ne was disposing of the fragrant goobers at five cents a bag, and locked up on suspicion. Lock, until about three weeks ago, had worked in the Sisters' Hospital, and then he took up his quarters with a family named Sayres who reside on Lafayette street. He left there a parcel containing bed clothing which was identified as the property of the Sisters, and it is surmised that he stole it at the hospital. An inventory there will disclose how much more is missing. A charge will probably be placed against Lock today.

therewith.

The Auditing and Finance Committee ommended the payment of bills to the ount of \$23.60. Recommendation ap-

mount of \$23.60. Recommendation approved.

Ity Attorney Arthur submitted a conract signed by the city, party of the first part, and Wiley & Greeley and John Allin, parties of the second part, for sprinkling the streets of town for a period of three years from date, the terms of which have already appeared in these columns. The contract was approved and a bond in the sum of \$1000 accepted.

In the matter of the petition of A. A. Caswell for permission to erect a wooden building on Delacy street, the City Attorney reported that ordinance No. 21, fixing the fire limits, gives the board no discretion in the matter, but absolutely prohibits the erection of a wooden building within such limits. The petition was rejected.

In the matter of a public pound the attorney reported that the Pound Master states that he has no place to impound dogs or other animals, and it was recommended that steps be taken at once to provide such a place, so that the ordinance may be properly enforced. The matter was referred to the Committee on Public Buildings and Grounds with power to act.

Auditur F. P. Boynton submitted his re-

Auditor F. P. Boynton submitted his report, which was prefaced thus: "Having made, with the assistance of G. A. Durrell, a careful examination of the city books from March 1, 1890, to April 18, 1892, together with all the reports of the City Clerk, Marshal and Tax Collector, Treasurer and Recorder, including vouchers pertaining to same, have the honor to report them correct, with the exception of the fewerrors noted in the statement annexed." Mr. Boynton further suggested that a more simple and practical method of keeping the city accounts be adopted, the present system being complicated and requiring toomany auxiliary books. Mr. Boynton suggested a system which will simplify the work and which will probably be adopted. The errors for the time covered by the report amounted to a sum total of \$8.52. During the fiscal year of 1890-91 the total receipts amounted to \$82,001.03 and the total disbursements to \$80,444.79, leaving a balance of \$1556.24. In 1891-92 the receipts were \$71,382,94 and the disbursements \$6350.38. The report was accepted and filed.

SEND IN THE FLOWERS.

The committee of ladies appointed to decorate the cars of the editorial excursionists during their visit here tomorrow met yestenday afternoon at the Carlton parlors to make the necessary arrangements. Mrs. M. Rosenbaum was made chairman of the committee. One special car was assigned to each member to receive her individual attention; and Mrs. Kernaghan, Mrs. Willard, Mrs. Vore and Mrs. Hartwell were appointed a sub-committee to solicit flowers. The vacant storeroom just north of the postomice has been secured and all persons who can donate anything in the floral line are requested to take their contributions as shorely after 9 o'clock tomorrow morning as possible. Those who cannot send their flowers, by leaving their names at Vore & Hoag's stables, can have them delivered free of charge. It is desired that the choicest varieties be sent, either loose in baskets or arranged in bouquets. By consulting yesterday's issue of The Thirs the full list of the visitors may be seen. It has been suggested as a pretty idea that an individual bouquet be sent to as many of the different editors as may have friends living here or who were former residents of the same town back East. In such cases the name of the donor should be attached.

The floral decorations will constitute an important feature of the visitors' reception and the contributions must be liberal to carry the idea out properly.

and lunch. Evidence points very strongly to the killing of Enos Philanc (or Filanc) having been a case of premeditated murder, done by Silizar at the instigation of J. M. Belarde. Silizar fired five shots, one of which wounded the horse Philanc was driving and the last passing through Philanc's head. The Coroner's jury returned a verdict of death by murder.

### RIVERSIDE.

A very pleasant and unique party was given last week by Mrs. J. B. Stebbins and Mrs. R. C. Winans, at the home of the former. It was announced as a "corn party," and there was much curiosity as to party." and there was much curiosity as to what it might be. The name was derived from the method employed in assigning partners for the evening. Seventeen ladies were each given an ear of corn to each of which a long yellow ribbon was tied, one end extending to the middle of the room where all the ribbons were gathered in a cluster. The gentlemen then selected one end of ribbon and followed it back to the ear of corn and his partner for the evening. The corn was shelled by the gentleman and the grains counted by the lady and all placed together in a jar. The gentlemen and ladies guessed at the number of grains of corn, the two guessing nearest the correct number being awarded prizes. Mrs. M. Alguire won the prize for ladies and C. P. Hanoock that for gentlemen. Later in the evening the gentlemen.

warded prizes. Mrs. M. Alguire won the prize for ladies and C. P. Hancock that for gentlemen. Later in the evening the gentlemen went upon a piscatorial excursion and ished the lunches from behind a screen in one corner of the room, each being tastilly arranged in a fancy basket.

At Riverside there is now more than 9000 acres set to orange trees, and the area is increasing at the rate of more than 1000 acres as year, and the trees are coming into bearing at the same rate. But the supply of oranges does not yet keep pace with the demand, and there are hundreds of ways of using the fruit that have scarcely become known, and little attempt is made toward engaging in the preparation of the various products from the fruit of which it is capable of furnishing the material and at a profit. The first step of any importance in this direction is that being undertaken by Mr. Froude in establishing a factory for the extraction of oils and essences. There is a large field in this direction awaiting to be occupied.

Notes.

Brown's Hotel, one of the oldest institutions in the city, closed its doors yesterday,
the two young proprietors not being able to
stem the tide any longer. The firm has
been doing a very poor business for some
time past, but it was thought they would
pull through all right. The manager said
yesterday to THE TUBES representative that
when the firm first started they made good
money out of it, but of late had done very
poorly. Ordinance 89 had cut in on their
profits considerably and they were forced
to shut up. The liabilities are not large,

After the corn has been thoroughly covered with tar, roll it in ready for use. Care should be taken in applying the tar that too thick a coating be not put on, as it might prevent germination. An old iron kettle has been found useful to stir the corn in while applying the tar. This same remedy will prevent crows, blackbirds, etc., from pulling the corn after it has sprouted.

BOUND TO GO TO THE REFORM SCHOOL. Some days ago Charles Ramella missed a a razor from his room and a long searct failed to discover it. He bought a new one failed to discover it. He bought a new one, which was kept in the same place. This also disappeared. A third one was bought, and in a few days that had followed the first two. A fourteen-year-old boy, who had been seen about the premises, was suspected, and a search of his home was quietly made. The search disclosed the missing razors, and also a watch that had been stolen from Master Horr. James about a year ago. The arrest and commitment of the depraved young fellow would have followed, but, upon the promise of the boy's parents to look sharply after his actions in the future, and their pleading to not prosecute the boy, the interested parties finally agreed to let the matter drop. PROHIBITION.

Platform and Resolutions Adopted at At the Prohibition convention held in Pasadena last week the following strong platform and resolutions were

adopted:

The Prohibition party of Los Angeles county in convention assembled, relying upon the guidance of the Supreme Ruler, reaffirms, its allegiance to the State and national parties, and declares its purposes

national parties, and declares as players as follows:

First—The liquor traffic is the chief source of moral, social and political evil—of poverty, vice and crime. It endangers the security of life and property, is an enemy to all good government, and debauches and dominates the political parties that foster and protect it. The cost of the liquor traffic and of the evils resulting from it is also the greatest tax upon industry and the greatest tax upon industry and the greatest burden which the American people have to bear, causing an annual waste of over \$1,000,000,000 of our wealth. In the language of the Supreme Court of the Lucted, States: "The statistics of every

\$1,000,000,000 of our wealth. In the language of the Supreme Court of the United, States: "The statistics of every State show a greater amount of crime and misery attributed to the use of ardent spirits obtained at retail liquor saloons than to any other cause." We therefore declare this traffic to be a crime against humanity, and demand its suppression by law.

Second—The national banking system should be abolished; postal savings banks be established; a safe currency sufficient to transact the business of the country be provided by direct issue from the Government of gold and silver coin and treasury notes—and all currency should be a full legal tender.

Third—The cost of transportation and

notes—and all currency should be a full legal tender.
Third—The cost of transportation and combunication under the present management of our railway and telegraph service is a great tax upon the industries of the nation, and as a means of relief from this burden we favor national ownership and control of all such public monopolies.
Fourth—Women should have equal property and other civil rights and equal political privileges with man. Her cooperation is needed in the conduct of public affairs for the promotion of moral and political reforms.

for the promotion of moral and political reforms.

Fifth--The spoils system is a corrupting influence in our political life, and the chief cause of inefficient and dishonest management of public business. We therefore condemn it and favor complete and absolute civil service reform in all departments of the Government service.

Sixth--Our immigration laws should be so revised and enforced as to exclude discased, pauper, viclous, criminal and other undesirable immigrants; to extend the time of residence required before naturalization; to require that no immigrant be naturalized until able to read English, nor be permitted to vote until fully naturalized.

Seventh—All questions of duties on im-

Eleventh—All official fees should be covered into the public treasury and officials be paid reasonable salaries.

Thirteenth—We favor a limitation in the corporate ownership of land.
Fourteenth—All trusts or combinations of capital for the purpose of controlling the price of articles of common necessity are oppressive, and should be prohibited. We hail with pleasure the organization of workingmen and farmers, and the just demands they make for the abolition of class and monopoly legislation against the interest of the wealth-producer; and we earnestly invite the cooperation of farmers and workingmen to aid the Prohibition party in its efforts to accomplish much-needed industrial reforms.

Resolved, that on the question to be submitted to the voters of the State at the next election to ascertain the will of the people of the State on the question of requiring an educational qualification of voters, we emphatically declare for a qualification requiring every voter to be able to write his name and to read any section of the constitution in the English language.

Resolved, that in openly allowing the inhuman practice of prize fighting in our state we exhibit a barbaric taste equal to that shown in cultivating the Spanish bull fight or the Indian sun dance. We condemn the practice of those newspapers which pander to this savage taste by publishing elaborate and sensational accounts of such demoralizing exhibitions; and we demand that all such exhibitions be prohibited, under severe penalites.

If the "Undertakers' Combine" and the Hackman's Union are not one and the same, why is it that the Combine offers to put up tain hackmen to join the union?

We wish to publicly thank our many friends who have called to express to us their appreciation of our efforts to break up this strong Combine, and to say to the public that we have no intention of being rur out of business or of being dictated to by the "Trust." Our Millinery Department has shown some lovely goods this season and most reasonable in price. We have earned the reputation, and justly, for carrying the largest and most complete line, while our prices are at the same ratio as every department in the house.

Our Dress Goods and Silk Departments are coming rapidly to the front. A few years ago we did not give these departments as much consideration as we should, but the past year we have devoted all our energies to them. We have a lovely stock of goods—the qualities and styles equal, if not excel, others, while the difference in prices crowns our labors with results. We offered some all-wool Dress Goods last week at 35c, and the value was so great

Dress Goods.

Items which cannot fail to interest you.

At this price we place on sale the largest variety of All-wool Goods ever displayed, comprising Chevoits, Fancy Weaves, Her-ring Bone effects, and numerous other lines. These goods are strictly All-wool, from 38 to 40 inches wide, and the actual worth is 60c a yard.

500 a yard. Spring and Summer Henriettas and Surah Cloths in all the leading shades. These are imported goods and we guarantee them as strictly all-wool, 40 inches wide; will prove both serviceable and stylish, and are generally sold for 65c a yard.

After the usual preliminaries had been disposed of, a message was re-seived from the Mayor returning without his approval the ordinance of inten-tion to improve part of Beaudry avenue, in accordance with the request of a number of the Council.

Upon motion of Councilman Innes the bote by which the ordinance had been adopted was reconsidered and the ordinance filed.

The City Treasurer's report showing the transactions of his office for the month of April last was referred to the City Auditor.

The City Clerk reported that the or-dinance of intention to construct a cement sidewalk on Olive street, from Sixth to Pico streets, had been laid, over at the last meeting for one week. Upon motion of Councilman Rhodes the matter was again laid over for one week.

matter was again laid over for one week.

E. E. Powers, Esq., appeared before the Council and presented an appeal, an behalf of the property-owners on Ficket street, from the decision of the Street Superintendent upon the grading of that thoroughfare from First street to Brooklyn avenue, and asked that the warrant issued to the contractor be set aside on the ground, that he had agreed to do the work for \$1.98 per foot instead of \$2.38. Upon motion of Councilman Rees the appeal was set for hearing on Monday afternoon next.

STREET MATTERS.

STREET MATTERS.
The Street Superintendent reported

as follows:

In the matter of the widening of Seventh street I have to report that I have presented a demand on the City Treasurer for \$40.30, being the amount due for an assessment on city property at the west city boundary. The full assessment against the property is \$169.80, but under an option of the City Attorney I am advised that where the benefits assessed exceed the amount of damages assessed, I may accept the difference in cash together with a deed for the land taken. In this case a deed cannot be given by the city to the city, and upon the payment of the demand for \$40.30 (the difference) and the adoption of an ordinance abandoning the following land to be taken for the improvement, to wit: The south 10 feet of lot fronting 64.67 feet on the morth side of Seventh street, bounded on the west by the west city boundary and on the east by lot 11, block 8, Auburn Lake Tract. I will credit the assessment and mark the same paid. This matter must be attended to before June 8, 1882 the date aract. I will credit the assessment and mark the same paid. This matter must be attended to before June 6, 1892, the date of delinquency.

The matter was referred to the Land Committee and City Attorney, who were directed to draw up and present the necessary ordinance.

The matter was referred to the Land Committee and City Attorney, who were directed to draw up and present the necessary ordinance.

In the matter of constructing a cement sidewalk on Angelina street, from Beaudry avenue to Temple street, I have to report that all the sidewalk was laid before the passage of the ordinance of intention, and for this reason! did not post the notices of street work. I recommend that all proceedings be abandoned. Adopted.

In the matter of constructing a cement sidewalk on Hill street, from Pico street to Fourteenth street, as per ordinance No. 1260, I was instructed to hold the posting of the notices of street work until further orders. These orders have never been received. What is your pleasure?

All the work being completed, further proceedings were abandoned.

In the matter of removing the obstructions from the alley running from Hill to Broadway, between Third and Fourth streets, and known as Church Lane, it have to report that in accordance with your instructions I had intended to remove the same on this day at 10 o'clock and served a notice to that effect upon the property owners. Since the serving of the notice have had the following notice served on me as Street Superintendent, to-wil:

"You are hereby notified that the strip of ground referred to in your letter or notice of May 13, 1892, adjoining my property, and running from Broadway to Hill street, between Third and Fourth streets, and sometimes known as Church lane, is not a public alley and never has been such, and that neither the said city of Los Angeles nor the public has any right or interest in the same, or to travel or use the same; but same is my private property, and you are hereby notified not to remove any obstructions, fences or other things, fixture or improvement therefrom: and you are hereby notified not to remove any obstructions of fixed the action of the Council, who had gone out to look over the land, had rejected it, as south exposure.

After some discussion of the subject

After some discussion of the subject the Street Superinfendent was directed to suspend proceedings until he received further instruction.

A lengthy communication was read from the Chief of Police with reference to the enforcement of the ordinance providing for the trimming of trees, bushes, weeds, etc., in front of property, in which he suggested that the ordinance be so amended that the property-owners be required to clean up their sidewalks on or before May 1 of each year, and that in the event of neglect to do so the work be done by the Street Superintendent and the costs entailed be collected with the taxes.

It is urged that if Gouncil cannot enact and enforce such a law the matter could be reached through the Legisla-

The Land Committe reported, recommending that the bid of J. W. Potts, offering to sell the west twenty acres of of his land at \$2980, for a pest house

The report of the Board of Fire Commissioners recommending the Council to notify the Los Angeles City Water Company to place fire hydrants on Central avenue at the corners of Eighth, Ninth and Twelfth streets; on Maple avenue at the corners of Pico, Sixteenth and Washington streets; on Eleventh at the corners of Flower and Hope streets; on Pico street at the corners of Flower and Hope streets, was adopted.

The Committee also recommended the acceptance of the bid of Blaisdell & Sprague for a lot for an engine house.

Petitions 133, 175, 703, 57, 56, 59 and 140 were filed at the recommendation of the Gas and Light Committee, of his land at \$2980, for a pest house be accepted.

The matter was discussed for over an hour, Councilman Rhodes maintaining that the present site was a good one and that there would be as much opposition to the hospital if it was moved to the proposed location, which would cost the city from \$10,000 to \$15,000.

Councilman Innes, however, held that the majority of the people were in favor of its removal from its present location to a more isolated site.

President Bonsall, who resigned the chair, temporarily, objected to the Council acting on this matter until the Board of Health had done so, as up to the present time not a line as to the urgency for the removal had been received.

The City Engineer reported final or-dinances for establishing grades on Los Angeles street, from Seventh to north boundary line of the Childs tract; Pico street to Twenty-third street: Girard street, between Sentous street and its west boundary, and Fanning street from First to Temple street. Councilman Rees said that it was always best to be prepared for emergencies and not wait until they arose. It was practically settled that the present site was part of the Elysian Park, and there was no question but that the city could be enjoined from leaving it there. The Potts site was, in his opinion, the most desirable that had been offered.

President Bonsall insisted that it was not in the province of the Council to take the initiative in this matter.

Councilman Innes retorted that so far

Councilman lines retorted that so far as waiting the action of some board was concerned, the Council had disregarded the action of the Fire Commissioners in the engine-house lot matter.

President Bonsall replied that in the action between matter the ungage, had

Councilman Rees then moved that it be the sense of the Council that the land offered by J. W. Potts, to-wit, the westerly twenty acres as shown on the map, presented by him, be purchased by the city, with funds to be provided in the next tax levy.

This motion was also defeated, that of Councilman McGarry to refer the matter to the Board of Health prevailing.

713 South Main Street, - -

The above are two fac similes of many REWARDS OF MERIT or DIPLOMAS of PROFESSIONAL SKILL which have from time to time been awarded to the CELEBRATED CHINESS PHYSICIAN, DR. WONG, for his superior medical abilities and curative powers. It has long been customary among the Chiness people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, if, after having been taken to an eminent physician, he be cured of his disease—the cured, too in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the prolongation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with character entirely meaningless to the average English scholar, but full of meaning to the successful physician and his friends, It is a motto which highly compliments the physician for his great skill in effecting a cure of the disease which once afflicted the donor.

It is not an uncommon thing to see a great number of these COMPLIMENTARY DIPLOMAS advanting the office walls of Chinese physicians in their native country, and indeed a number of the most successful ones in this country are the happy possessors of a few of these high tokens of very superior medical ability.

he Telephone Girl to be Supplanted by

M. C. Harris, a young gentleman from Chicago, who is in Los Angeles for the benefit of his health, has brought with benefit of his health, has brought with him a working plant of the Strowger Automatic Telephone Exchange, which system promises to revolutionize the telephone business at an early day. The Strowger company is a strong organization, with with a capital of \$5,000,000, owning the patent right of a great invention and with orders ahead to keep them busy for two years. Mr. Harris has offices in the Workman Block, South Spring street, where he is ready to exhibit his apparatus to the public, and where he would be especially glad to welcome the visiting editors.

ally glad to welcome the visiting editors.

The Strowger switching apparatus is designed to work with the present telephone system, no change being required either in the lines or transmitters. There will be a central station, but it will be operated entirely by the users of the telephones, thus dispensing with the force of operatives now required to make the connections. The box of each transmitter is provided with four keys marked, respectively, "R" "1" "10" "100" and "1000." The man who has a message to send picks out the number of the telephone he wants on these keys. First he presses the "R" key to make sure that his telephone is released from all others. Then, if he wants telmake sure that his telephone is released from all others. Then, if he wants telephone 852, for example, he presses the "100" key three times, the "10" key twice. He is then connected with telephone No. 852 and is free from interruption from any outside telephone. If desired three instruments may be connected, and three people can carry on a conversation siple can carry on a conversation si-multaneously. In addition to this each telephone has a private number which may be secured by concurrence of the sender and receiver, and this insures

absolute secrecy.

The automatic switching apparatus, which is located in the central office and performs the duties now devolving upon the 'hello girl' is too intricate to be described here. It is a beautiful mechanical device, working by means of cogwheels, revolving discs, magnets and armatures, and does its business

and armatures, and does its business like a charm.

This system of switching is sure to be adopted before long all over the country, and it will form a great saving to the companies by allowing them to dispense with their operating forces. It will be a great convenience to the public, obviating most or all of the annoyances now due to the central station and insuring privacy. It will also adand insuring privacy. It will also admit of the introduction of telephone service in small places, which would not now justify the establishment of a sys-tem. The new contrivance is well worthy of an inspection.
